OBJECTIVE

B.Tech graduate seeking an entry-level IT opportunity to apply my technical skills, contribute to innovative projects, and continuously learn and grow in a professional environment.

EDUCATION

B.Tech in Electrical and Electronics Engineering (EEE) — **2022 – 2026**
Annamacharya Institute of Technology and Sciences, Rajampet — CGPA: 7.54/10

Intermediate (MPC) — **2020 – 2022**
Sri Chaitanya Junior College, Tirupati — 59.6%

Secondary School (10th) — **2019 – 2020**
Sree Padmavathi High School, Chitvel — 93.33%

SKILLS

Technical Skills	Python, SQL (MySQL), Web Development
Cloud Technologies	AWS (EC2, RDS, S3, Lambda, API Gateway, CloudFront)
Development Tools	Git, GitHub, Linux, VS Code
Certifications	AWS Cloud Practitioner Essentials (AWS Skill Builder, Coursera) | Web Development (SkillDzire) | Python Basics (HackerRank) | ServiceNow Administration Fundamentals (ServiceNow) (View)

INTERNSHIP / TRAINING

SkillDzire | Web Development Intern — **June 2025 – August 2025**

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Built CRUD-based web applications and integrated frontend with backend functionality.
- Utilized Git and GitHub for version control and collaborative development.
- Strengthened problem-solving and web development skills through hands-on projects.

PROJECTS

AWS File Sharing Platform | Python, FastAPI, AWS (EC2, RDS, S3, CloudFront) GitHub

- Developed a secure cloud-based file sharing platform using Python and FastAPI.
- Implemented user registration, login, and session-based authentication.
- Integrated Amazon S3 for secure file upload, download, preview, and sharing.
- Used Amazon RDS (MySQL) to store user information and file metadata.
- Deployed the application on Amazon EC2 using Nginx and Amazon CloudFront for secure HTTPS access.

AWS Image Compression Pipeline | Python, AWS (S3, Lambda, API Gateway) GitHub

- Built a serverless image compression pipeline using Amazon S3, AWS Lambda, and API Gateway.
- Automated image compression using Amazon S3 event notifications and AWS Lambda.
- Developed REST APIs using API Gateway for image upload and download.
- Generated secure image downloads using Amazon S3 Presigned URLs.
- Implemented monitoring and logging with Amazon CloudWatch.

ACHIEVEMENTS

- Selected for the Final Round of HackOrbit Hackathon among thousands of participants based on technical and problem-solving abilities.
